Education

Suranaree University of Technology

Bachelor of Information Science (Digital Technology) GPAX 3.50

Nakhon Ratchasima, Thailand

Expected Graduation: October 2026

Benjamarachutit School, Pattani

GPAX 3.73

Pattani, Thailand

2023

Experience

Suranaree University of Technology Hospital (SUTH)

UX/UI Designer Intern

Nakhon Ratchasima, Thailand

June 2026 – September 2026

My SUTH App

- Designed user flows and UX architecture for 5+ core hospital staff workflows across multiple user roles, including queue management, attendance, E-consult, and emergency alerts.
- Translated user and operational requirements into high-fidelity interfaces while considering system constraints and collaborating with the hospital IT team.
- Supported Flutter frontend implementation for key application flows and collaborated with developers during backend integration.

Academic Projects

Goal Management

UX/UI designer

2026

Conducted user research with 36 participants to identify user needs and behaviors, translating findings into user flows and interaction concepts for goal setting and progress tracking.

Kiosk Redesign - Ratthasima Khunakon Building

UX/UI Designer

2026

Redesigned an academic building kiosk by improving information hierarchy, navigation, and wayfinding flows to help users find rooms, identify destinations, and understand routes more easily.

City Waste Management System - Hackathon

UX/UI Designer

2025

Designed user flows, wireframes, and interactive Figma prototypes for a city waste management solution.

Collaborated with developers to ensure usability and technical feasibility, contributing to a Top 8 finish among 41 teams.

Dormitory System

UX/UI Designer

2024

Conducted user research with students and staff, translating findings into user flows, wireframes, and high-fidelity prototypes.

Designed navigation and responsive layouts with consideration for usability and accessibility.
