Pattani, Thailand

2023

Experience

Suranaree University of Technology Hospital (SUTH)

My SUTH App - UX/UI Designer Intern

City, State (or remote)

june 2026 – september 2026

- Designed a mobile application for SUT Hospital, covering staff attendance, notifications, queue, and appointment workflows.
- Created user flows, wireframes, and high-fidelity prototypes in Figma for multiple user roles.
- Implemented selected screens in Flutter and improved designs through usability testing.

Academic Projects

Goal Management

UX/UI designer

2026

- Designed a goal management app based on user research with 36 participants.
- Created intuitive goal-setting, progress tracking, and streak features to support user motivation.

Kiosk Redesign - Ratchasima Khunakon Building

UX/UI Designer

2026

- Redesigned the hospital self-service kiosk to improve usability, navigation, and information clarity.
- Simplified key user flows and interface layouts to make services faster and easier to access.

City Waste Management System - Hackathon

UX/UI Designer

2025

- Designed user flows, wireframes, and interactive prototypes using Figma.
- Collaborated closely with developers to ensure design feasibility.
- Focused on making the interface intuitive, engaging, and easy to navigate for both city staff and residents.

Dormitory System

UX/UI Designer

2024

- Conducted user research to understand student and staff needs.
- Created wireframes, user flows, and high-fidelity prototypes in Figma.
- Applied design principles for intuitive navigation, responsive layout, and accessibility.
